PT. YONGJIN JAVASUKA GARMENT	**INSTRUKSI KERJA PENCEGAHAN JAMUR DI SEWING** *WORK INSTRUCTION - ANTI MOULDING IN SEWING*	No. Dokumen : YJ-IK.SEW.0008 Tgl. Efektif : 23 Mei 2018 No. Revisi : 00 Halaman : 1

1. Pastikan panel dan accessories terbungkus polybag saat diambil oleh asisten helper
2. Hindari tumpahan bahan cair pada saat proses penjahitan
3. Pastikan tangan operator dalam keadaan bersih (tidak berminyak atau basah)
4. Pastikan steam tidak mengalami kebocoran

1. Make sure the panels and accessories are wrapped in polybags when picked up by the assistant helper
2. Avoid spilling liquid materials during the sewing process
3. Make sure the operator's hands are clean (not oily or wet)
4. Make sure the steam does not leak

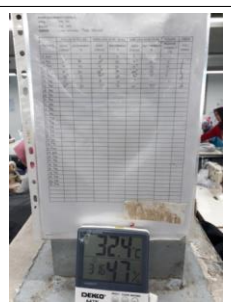

5. Boks penyimpanan silica gel selalu dalam keadaan tertutup
5. Always keep the silica gel storage box closed

6. Pastikan alat vacum pada meja gosok berfungsi dengan baik (misalnya tidak terdapat bocor pada selang vacum)

6. Make sure the vacuum device on the iron table is functioning properly (for example, there are no leaks in the vacuum hose)

7. Pantau kelembaban ruangan dengan mengecek thermohygrometer dan mengisi humidity control setiap hari

7. Monitor the humidity by checking thermohygrometer and fill out humidity control every day

8. Jaga kebersihan ruangan, hindari tumpahan dan kebocoran bahan cair pada fabric. Jangan biarkan hewan (kucing) berkeliaran masuk ke area produksi
9. Hindari penyimpanan panel diatas lantai langsung tanpa cover /alas dan pallet plastik
10. Pastikan area produksi tidak bocor saat hujan (jika terjadi kebocoran, lakukan tindakan perbaikan segera)
11. Pastikan selalu ada jarak antara tembok dengan barang.

8. Keep the production clean, avoid spills and leaks of liquid materials on the fabric. Do not allow animals (cats) to wander into the production area
9. Avoid storing panels directly on the floor without box/bases and plastic pallets
10. Make sure the production area does not leak when it rains
(if a leak occurs, take immediate repair action)
11. Make sure there is always distance between the wall and the item.
